

Pre-show Stewards

Many thanks for volunteering your help. If you arrive by car, you may park in the Showground on the arena area opposite the Show Information tent. Please report to your duty position. For Health & Safety reasons, Vivary Park is fully closed to the public from Monday before the Show. Taunton Flower Show will have placed notices to this effect on the main and rear park gates.

Pre-show steward's positions

- **Mount Gate**

Your job is to inform pedestrians and cyclists arriving from the direction of Ash Meadows that they must use Mount Street or the path along the river. All vehicles and personnel with an authorized pass should be directed to the Show Information Tent and informed that there is a 10mph speed restriction and one way-system in operation.

PLEASE NOTE: The gate is heavy to open so please only work on the gate if you are comfortable opening a heavy gate.

- **Wilton Gate** (the entrance for Wilton Lands)

You will need as a gatekeeper, opening and shutting a temporary gate to authorized vehicles and personnel who will enter from the direction of Wilton Lands car park. Pedestrians wishing to walk towards the white gates should be directed to the pathway which runs across the bridge close to the car park gate and on to the War Memorial.

Members of the public wishing to use the Tennis courts, Children's play area or public toilets situated near the Cricket Pavilion are allowed to do so. All businesses will be open as usual during the setup.

When necessary, members of the public should be informed that they are still able to access the footpath to the Bowling Club and Golf Course at Wilton Lands by using the walkway along the Sherford Stream, which links the Vivary play park and the Fons George Car park. This path will close on Wednesday night to allow safety during the final setup on Thursday.
